

DIY Firefly

MATERIALS NEEDED

- Water Bottle
- Pipe Cleaners
- Glue dots
- Glow Sticks
- Googly Eyes
- Streamers!

ESTIMATED TIME: 10-15 min

STEPS

1. Stick the googly eyes onto the water bottle cap.
2. Wrap a pipe cleaner around the water bottle neck to make antennas!
3. Using your streamers or other paper, make a wing shape with them, and glue them together!
4. Place the glue dots on your bottle, then place the wings on the glue dots.
5. Screw the water bottle cap off (make sure it's empty!)
6. SNAP! Your glowsticks until they're all snapped out! Then put them in your water bottle.
7. Turn off the lights and watch your DIY Firefly put on a light show!
